

How to Separate and Put Out Household Waste

Sayama Encourages Recycling

Inquiries	●The Okutomi Environmental Center (897-1 Kamiokutomi 350-1333)	☎ 04-2953-2831	☎ 04-2954-7718
	● Questions about waste collection or collection sites	☎ 04-2953-2831	☎ 04-2953-2832
	● Environmental Resources Promotion Section (at the City Office)		
	● Questions about recycling of food waste	☎ 04-2937-6943	

Separation and Collection Please take to collection sites, observing specified disposal methods, by 8:00 am on the collection day. Items improperly disposed cannot be collected.

- If the rain and wind is strong, or it is snowing, please put out your waste on the next collection day. (Depending on the weather, it may not be possible to collect.)
 - Regular collection will continue on national holidays / substitute holidays. (Waste taken to centers cannot be accepted.)
 - In order to eliminate collection difficulties, only garbage bags up to 45L are accepted.
 - When bringing in waste, please make sure to separate it into the designated bags as outlined below.
 - The city does not provide nor lend bird-proof nets for collection sites.
- Separation of Household Waste, etc. (Article 19 of the Sayama City Ordinance on Waste Disposal and Recycling)
It is necessary to follow the waste separation and disposal methods designated by the city and to cooperate with others in keeping collection sites clean.

About bringing in waste

- Please sort waste as per the "How to Separate and Put Out Household Waste," and bring it in the designated bags and methods. Additionally, per-rules, waste is to be brought in by the owner or a member of their household or family.
- Waste from outside Sayama City is not accepted.** (In order to confirm your address, you may be required to show your driver's license.) (Please use the designated passageway to the Okutomi Environmental Center.)

Name of facility	Waste that can be taken directly to the center (We don't accept waste which is not separated.)	Hours	Charges (Handling Fees)
The Okutomi Environmental Center <i>(Crushing/Recycling Facilities)</i> 897-1 Kamiokutomi 350-1333 ☎ 04-2953-2831 ☎ 04-2954-7718	Unburnable waste, bulky waste, bottles and cans, used batteries, fluorescent tubes, spring mattresses, etc.	Weekdays 8:30 am–11:30 am, 1:00 pm–3:30 pm Saturdays 8:30 am–11:30 am (Calls on Sundays, National holidays, and Substitute holidays will not be accepted.) Closed at year-end and new-year [from 30th of Dec. (Wed.) to 3rd of Jan. (Sun)]	● Domestic waste...90 yen per 10 kg. Free under 50 kg * As for waste weighing 50 kg and more, we charge for the total weight of the carried-in waste, not only for the excess weight. For spring mattresses, you will need to pay a ¥1,000 disposal fee per item in addition to the fee stated above. ● Business waste...240 yen per 10 kg * Industrial waste is not accepted.
The Inariyama Environmental Center <i>(Incineration Facilities)</i> 1-12-1 Inariyama 350-1324 ☎ 04-2954-9062 ☎ 04-2968-0780	Burnable waste, futons and carpet [rug], business burnable, etc.		

Recycle Plaza (at the Okutomi Environmental Center) 897-1 Kamiokutomi 350-1333	Display Corner ☎ 04-2968-1323	<ul style="list-style-type: none"> We will accept items that are no longer needed (household items which are usable) for free, and sell them. Recycled items (furniture, etc. which are recyclable in bulky waste) will be distributed by lot with a fee. 	Opening Hours: Weekdays 9 am–3:30 pm, Saturdays 9 am–11:30 am Closed on Sundays, National holidays, Substitute holidays, and at year-end and new-year [from 29th of Dec. (Tue.) to 3rd of Jan. (Sun)]
---	---	---	---

Disposal of small animal carcasses

Regarding the bodies of domesticated small animals (dogs, cats, etc.) or those found on the road, please contact the Okutomi Environmental Center, or bring them to the Inariyama Environmental Center or the Okutomi Environmental Center.
 Please see above about bringing-in hours. Alternatively, we can come to collect them in the afternoon.
*** A handling fee required: 500 yen per body for bringing in, 1,000 yen per body for collection.**
*** Small animals of less than 1 m long and weighting less than 30 kg are accepted.**
*** Bones cannot be returned.**

Computer (PC) recycling

According to the Law for Promotion of Effective Utilization of Resources (PC recycling law), all manufacturers are required to recycle their products.
 Please refer to your PCs manufacturer for details on how to recycle your PC.
 If there is no manufacturer because it went out of business or withdrew from Japan, or if the items were personal imports or DIY computers, etc., please contact Renet Japan (<https://www.renet.jp>), a company designated by Sayama City to comply with the Small Home Appliance Recycling Law. <Renet Customer Centers>
 ☎0570-085-800 * Calls cost 10 yen per 20 seconds
 10:00 am–5:00 pm

Food waste recycling program

A program is implemented in which household food waste is collected once a week and recycled to make organic fertilizer. (Applications accepted per household)
 Those who wish to participate should contact the Environmental Resources Promotion Section after purchasing the designated bucket.
 Please purchase the designated bucket from one of the stores listed below.

- Masakiya (Kashiwabara)
- Sayama City Recycle Plaza (Okutomi)
- Welfare Shop "Amie" (Sayama City Office)
- AEON STYLE SAYAMA (Okutomi)
- AEON STYLE MUSASHISAYAMA (Irumagawa)
- AEON STYLE IRISO EKIMAE (Iriso)

Small home appliance recycling

Resources such as gold, copper, and rare metals are effectively utilized by properly separating and disposing of electrical appliances.
*** Place only small home appliances with one side below 30 cm in a transparent and colorless or white and translucent bag and dispose of them on the collection day for bottles, cans, used batteries, spray cans, and small home appliances.**
*** Small home appliance collection boxes, with a slot of 25 x 10cm, are installed in city office, community center, Recycle Plaza, civic center, and Iriso Community Center.**
*** Electrical appliances with one side over 30 cm are "Bulky waste."**
*** Sayama City does not collect or accept the four types of home appliances and PCs.**

Compost from recycling is given away for free at events such as environmental panel exhibitions.
 Purchase expense subsidy (receipt required)
 * 3/5 of purchase expense (up to ¥4,000)
 * Please fill in the required information in the subsidy application found in the designated bucket and apply. (Submit to: Environmental Resources Promotion Section, regional centers or Iriso Community Center)
 Collection days
 Monday: Okutomi, Kashiwabara, Mizutomi areas
 Tuesday: Irumagawa area
 Wednesday: Horigane, Shinsayama, Sayamadai areas
 Friday: Iriso area
*** A subsidy system for installing a food waste disposer**
 (1) Purchase expense subsidy for a food waste composter (3/5 of purchase expense, up to ¥4,000)
 (2) Purchase expense subsidy for an electric food waste disposer (A subsidy is 1/2 of a purchase expense, up to ¥10,000)
Environmental Resources Promotion Section

Recycling of the four types of home appliances ((1) TVs, (2) Air conditioners, (3) Washing machines/ clothes dryers, (4) Refrigerators/freezers)

The four types of home appliances (televisions, air conditioners, washing machines/clothes dryers, and refrigerators/freezers) are not collected or accepted in the city in accordance with the Home Appliance Recycling Law.
 If you want to dispose of the home appliances above, please ask the appliance retailer where you bought them from to come and collect. A collection/transport fee and a recycling fee will be charged.
 Collection/transport fee....This is not a standard charge. Please ask the retailer.
 Recycle fees
 The fee varies depending on the manufacture and product. Please call the **Home Appliance Recycling Ticket Center** (☎ 0120-319640) for details. You can also consult the **Home Appliance Recycling Ticket Center website** (<https://www.rkc.aeha.or.jp>).
 If you do not know from which retailer the appliance was purchased, consult with the nearest home appliance retailer or general waste management service which handles the four types of appliances (for a fee).
 When bringing waste in to the collection sites below, please pay the recycling fee listed above (separate transfer fee required) at your local post office, pick up the recycle ticket and post office issued Transfer Payment Certificate (receipt), and then give it to the collection workers. **When bringing items in, no prior notice is required.**

Specified collection sites
Nippon Express Co., Ltd., Kawagoe Business Office 6-37-3, Minami-Otsuka, Kawagoe City
NAGAO Corporation, Recycling Center 200-1 Shingo, Tokorozawa City
Tojo Express Co., Ltd., Kawagoe Recycling Center 886-9, Matsugo, Kawagoe City
Aoi Environmental Development Iruma Eco Stock 763-1, Bushi, Iruma City
Kurume Transportation Co. Ltd., Iruma Branch 1278-7, Nihongi, Iruma City

Environmental Resources Promotion Section
 ☎04-2937-6943

Please contact the Okutomi Environmental Center if you notice anyone taking recyclables from collection sites:
 Where and when it took place
 License plate number, type of car, color
 What types of recyclables were taken (Newspapers, cardboard, etc.)

Disposal Method Example (Collecting methods may differ according to material, amount and size of the waste, so please feel free to contact us if you have any questions.)

*** Please refer to the Household Waste Separation Guide or Waste Separation App on the Sayama City homepage (<https://www.city.sayama.saitama.jp>) for any items not listed here.**

Items	Category	Application
A Activated carbon	Burnable waste	A little amount and used inside of refrigerators, etc.
A Aquariums	Bulky waste	Make an appointment by phone or bring in.
B Bed pads	Burnable waste	Cut into portions less than 30 cm.
B Bicycles/electric bicycles	Bulky waste	Make an appointment by phone or bring in (Remove the battery from electric bicycles).
B Blue tarps	Bulky waste	Make an appointment by phone or bring in. Treated as plastic when clean and cut into 30 cm pieces with metal removed. Dispose of dirty items as burnable waste.
B Body covers for bicycles, motorbikes, and cars	Burnable waste	Cut into portions less than 30 cm and remove metal parts.
B Bottles for cosmetics	Bottles & cans, used batteries	Dispose of items made with plastic as plastic, after removing any mess.
C Carpet (rug)	Bulky waste	Make an appointment by phone or bring in to the Inariyama Environmental Center.
C Cassette cylinder	Bottles & cans, used batteries	Empty the contents and place only spray cans in a bag without puncturing them.
C Cassette tapes	Unburnable waste	Up to 10 at a time. Bring them in if more.
C Cellular phones	Consult with the store.	When disposing at collection sites, remove the battery and place the phones and batteries in separate bags. Dispose of them as bottles, cans, used batteries, small home appliances. You can also use the small home appliance collection box.
C Chinaware	Unburnable waste	Dispose of items bigger than 30 cm as bulky waste.
C Clothes-drying racks	Bulky waste	Make an appointment by phone or bring in.
C Cold insulators	Burnable waste	If the outside is made of hard plastic, dispose of as unburnable waste.
C Cooler boxes	Bulky waste	Make an appointment by phone or bring in.
C Curtains	Used paper & cloth	Remove any hooks. Cut dirty or torn items into pieces 30 cm or smaller and dispose of them as burnable waste.
C Cutlery/knives	Unburnable waste	Wrap the blade part in newspaper or something for safety.
D Diapers/paper diapers	Burnable waste	Dispose of excreta in a toilet.
D Disposal body warmer	Burnable waste	Soak them in water if the item has not been used.
D Dumbbells	Bulky waste	Make an appointment by phone or bring in.
E 18-liter cans	Unburnable waste	Empty contents, crush.
E Electric blankets/heated carpets	Bulky waste	Make an appointment by phone or bring in.
E Electronic cigarettes/heated tobacco products	Bottles & cans, used batteries	Place in the same bag as used batteries.
E Electric pots	Bottles & cans, used batteries	Dispose of items bigger than 30 cm as bulky waste.
F Fan heaters	Bulky waste	Make an appointment by phone or bring in. Take fuel out.
F Fans	Bulky waste	Make an appointment by phone or bring in.
F Fireworks	Burnable waste	Wet them.
F Frying pans	Unburnable waste	Items within 30 cm excluding the handle are accepted if they can fit into a 45-liter bag tied closed at the top.
F Futons	Bulky waste	Make an appointment by phone or bring in to the Inariyama Environmental Center.

Items	Category	Application
G Golf clubs	Bulky waste	Make an appointment by phone or bring in.
G Grass	Burnable waste	Up to two bags at a time. Bring them in if more.
L Lawn mowers (hand-push type)	Bulky waste	Make an appointment by phone or bring in. We will not accept items with an engine because they are difficult to process.
L LED bulbs, LED lamps (round type/linear type)	Unburnable waste	Put in the box that the new one came in, or in a separate bag, and place next to unburnable waste.
L Legless chairs/low tables	Bulky waste	Make an appointment by phone or bring in.
L Lighters	Unburnable waste	Put in a bag, and place next to unburnable waste.
M Microwave ovens	Bulky waste	Make an appointment by phone or bring in.
M Mirrors	Unburnable waste	Dispose of items bigger than 30 cm as bulky waste.
O Oil (for food)	Burnable waste	Soak it into a cloth or newspaper.
P Paint cans (except for spray cans)	Unburnable waste	Empty the contents.
P Paint spray cans	Bottles & cans, used batteries	Empty the contents and place only spray cans in a bag without puncturing them.
P Pillows	Burnable waste	Cut into portions less than 30 cm.
P Plant pots (ceramic)	Unburnable waste	Bulky waste for the items bigger than 30 cm. Plastic for the items which are made with plastic.
P Portable battery charger	Bottles & cans, used batteries	Place in the same bag as used batteries and electronic cigarettes.
P Printers	Bulky waste	Make an appointment by phone or bring in. Remove the ink tank and toner box.
R Rice cookers	Bulky waste	Make an appointment by phone or bring in. Dispose of items smaller than 30 cm squared as bottles & cans, used batteries, spray cans, small home appliances.
R Routers	Bottles & cans, used batteries	Dispose of items bigger than 30 cm as bulky waste.
S Sandbox for pets	Burnable waste	
S Sitting cushions	Bulky waste	Make an appointment by phone or bring in. Dispose of items which are cut into shorter than 30 cm as burnable waste.
S Smartphones/tablets	Bottles & cans, used batteries	Items marked with the PC recycle mark are treated in the same manner as computers. Remove the battery and place the phones and batteries in separate bags. Dispose of them as bottles, cans, used batteries, small home appliances. You can also use the small home appliance collection box.
S Space heaters (oil)	Bulky waste	Make an appointment by phone or bring in. Take fuel out and remove batteries.
S Stuffed animals	Burnable waste	Dispose of items bigger than 30 cm as bulky waste.
S Styrofoam	Plastics	As for dirty items, cut into less than 30 cm and dispose of as unburnable waste.
T Tents	Bulky waste	Make an appointment by phone or bring in.
T Toaster ovens/combo microwave ovens	Bulky waste	Make an appointment by phone or bring in. Dispose of items smaller than 30 cm squared as bottles & cans, used batteries, spray cans, small home appliances.
U Umbrellas	Unburnable waste	Bundle them and place next to unburnable waste.
V Vacuum cleaners	Bulky waste	Make an appointment by phone or bring in.
V Video tapes	Unburnable waste	Up to 10 at a time. Bring them in if more.

Examples of items that cannot be collected or processed

Items	Application
A Air conditioner	Refer to recycling of four types of home appliances (lefthand side).
B Batteries (for cars and motorcycles)	Because they are difficult to process.
B Blocks	Because they are construction material waste.
B Bricks	Because they are construction material waste.
C Cement	Because it is difficult to process.
D Displays (for PC use)	Refer to computer (PC) recycling (lefthand side).
E Engine oil	Because they are difficult to process. For a little amount, soak it into cloth or newspaper and dispose of as burnable waste.
E Engines	Because they are difficult to process.
F Farming machines/appliances	Because they are difficult to process.
G Gas refills	Because they are difficult to process.
M Motorbikes (including parts, etc.)	Because they are difficult to process. Use the recycling system for motorbikes.
P Paints	Because they are difficult to process. For a little amount, soak it into cloth or newspaper and dispose of as burnable waste.

Items	Application
P PCs	Refer to computer (PC) recycling (lefthand side).
P Pianos	Because they are difficult to process.
R Refrigerators/freezers	Refer to recycling of four types of home appliances (lefthand side).
R Roof tiles, slate, etc.	Because they are construction material waste.
S Safe/safety box (fire resistant)	Because it is difficult to process.
S Stones/soil/sand (gravel)/fertilizer	Consult with the store of purchase, a landscape contractor, or an industrial waste disposal company.
S Syringes/injection needles	Consult medical institutions or stores.
T Televisions (cathode-ray tube, LCD, etc.)	Refer to recycling of four types of home appliances (lefthand side).
T Tiles	Because they are construction material waste.
T Tires (cars and motorbikes)	Because they are difficult to process.
W Wallpaper	Because it is difficult to process.
W Washing machines	Refer to recycling of four types of home appliances (lefthand side).

2026 Household Waste Collection Schedule

Burnable waste Mon./Thu. area Cut out your area from the list and paste above.

* For the calendar version of the collection schedule, please search for "2026 Household Waste and Recycling Waste Collection Calendar Sayama City" on the internet and select the calendar from Sayama City's official website.

* Nonbusiness days are indicated in red.

Burnable waste

Dispose of small home appliances with one side over 30 cm on days for bottles & cans, used batteries, spray cans, and small home appliances.

*Remove any removable batteries and place them in a separate bag when disposing of them.

Lithium-ion batteries as well as appliances that contain built-in batteries pose an extremely high risk of generating heat or catching fire when they are subjected to strong impacts. Many fires thought to have been caused by impacts generated during collection or crushing at disposal facilities have been reported. In some cases, these can cause significant damage to collection vehicles and/or disposal facilities, leading to the interruption of regular collection services. In order to prevent such incidents, please properly sort and separate items for disposal.

<Main small appliances>

Mobile phones, smartphones, digital cameras, portable CD players, electronic dictionaries, calculators, handheld gaming devices, electrical cords (cables), electronic thermometers, electric shavers, dryers, etc.
